DEDICATION

Dear Coach O'Hagan;

Our class was one of the smallest to enter Ripon High's doors, but thanks to you, our class will be one of the greatest to leave.

As one of our advisors you helped us take the first place trophy in class division two years in a row during Homecoming. Without your help our Prom would never have been what it was. And with your earnest dedication as a teacher you gave us the incentive to do our best in Civics.

And during the three years you have been here, you have given Ripon High a Championship Varsity Basketball team.

At times we may have seemed as though we didn't appreciate your help. Nothing could be further from the truth. To show our gratitude for the help, patience, time, effort, and understanding you have given us, we would like to dedicate this 1963 Mission to you.

ADMINISTRATION

TO THE GRADUATING CLASS

Principal O'Leary

To the many congratulations you have already received, I add my compliments on your graduation and best wishes for your future. It is always a pleasure to see a group of young people finish their high school education and begin a new phase of life.

If I may add an additional thought to your future plans, I suggest you consider that your education is just beginning. For example, over one third of the employment situations today were not known fifteen years ago. Statistics indicate that by 1970 we will need two and one-half million people in jobs that today we cannot describe or explain because we don't know what they will be.

The true test of your education will be how well you evaluate and solve the problems of your future. Redo that which is not satisfactory, take pride in what you do well. I am confident you will succeed.

Joseph C. O'Leary
